

folium

Folium Vineyard is 8ha vineyard located in the Brancott Valley in the Marlborough Region on New Zealand's South Island. The climate in Marlborough is perfectly suited to growing premium Sauvignon Blanc, Chardonnay, and Pinot Noir.

Folium Vineyard believes that winemaking starts in the vineyard. Detailed care in the vineyard starts with pruning in the winter, followed by canopy management, such as shoot and bunch thinning, and leaf plucking during the summer, all the way to hand harvesting at optimum ripeness in the autumn.

folium vineyard Sauvignon Blanc 2024
